MI Technologies Names Malcolm Warren as International Sales Director

ATLANTA -- MI Technologies, the leading global supplier of RF and Microwave antenna test and measurement products, systems and services, announced today the addition of Malcolm Warren to the business development team as an International Sales Director reporting to Mike Murphy, Vice President of Sales.

In this role, Mr. Warren will augment the organization's sales and support teams in place in certain international regions and provide leadership of the company's business development efforts in Europe and some select Asian regions.

"Malcolm brings a great deal of experience and talent to the organization," said Murphy, "With his skill sets in both the business development and technical aspects of our business, Malcolm is certain to help our in-region teams to further MI's reach in Europe and Asia. We are very fortunate to leverage his diverse experience and broad capabilities as we refine and execute upon our strategic plans for international business expansion and growth."

Mr. Warren provides a broad range of business and technical capabilities in support of MI Technologies' expansion in Europe and Asia. Prior to joining MI Technologies, Malcolm held increasingly responsible roles in the industry with multi-national companies in both the public and private sectors. Most recently, Malcolm was the Managing Director for Asia for ViaSat in Atlanta, developing business throughout that region for broadband satellite systems. Previous to that role, Malcolm was with Scientific-Atlanta which provided him the opportunity to gain experience in antenna measurement systems and where he successfully implemented strategic selling initiatives.

Mr. Warren holds undergraduate degrees in Electronic, Electrical and Computer Engineering from Southampton University in the UK.
